

2017 Geospatial Summer Fellowship Program

Letter of Agreement

I understand that the conditions of the Oklahoma NASA Space Grant Geospatial Summer Fellowship Program and Symposium are as follows:

1. The fellowship award of \$2,000 includes:

- Laptop provided for GIS lessons
- Student version of ArcGIS software
- \$1000 stipend paid to the student upon successful completion

2. Fellowship recipients are expected to complete an estimated 96 hours of activities including:

- Online GIS and remote sensing training courses
- Online webinars
- Contribute to online community
- Individual GIS project in topic area of interest. Laptops will be distributed for use in study through the Space Grant representative at your institution.

During the study term of use students shall:

- retain original packaging and paperwork
- refrain from altering or damaging the laptop in any way

Upon successful completion of the program laptops will be permanently transferred to student ownership. Students who do not complete the program will be required to return the laptop in full working condition to the Space Grant representative at your institution.

3. This award may have financial aid or tax implications depending on your unique situation; the student is advised to check with the financial aid office at their academic institution.

4. Complete and full participation is required to receive the fellowship stipend and laptop.

5. Students are required to this agreement and a vendor information form (for stipend check processing) in order to participate.

6. Stipends will be distributed following completion of all program requirements.

7. Students will be contacted by an organization outside our office for longitudinal tracking to assess program impacts and outcomes.
